

# Команда Runtime Error

Хакатон 1.1

# Состав команды

- Кулишов Егор  
(Frontend Developer)
- Инюцин Игнат  
(Team Lead)
- Михаил Леонтьев  
(Backend Developer)

# Описание кейса

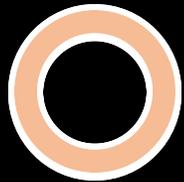

Составить web или мобильное приложение для автоматизированного составления рейтинга преподавателей (встроенная рейтинговая система, которая формируется путём голосования участников, с и без регистрации). В идеале - сайт или приложение, в котором есть страница с данными о преподавателях, их цитатами и др. доп. информацией, выстроен рейтинг популярности и особых навыков

# Существующие решения

- RateMyTeachers

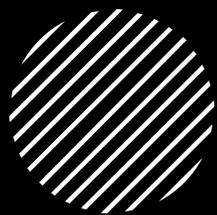

The screenshot shows the Rate My Teachers website. At the top left is the logo 'RMT RATE MY TEACHERS'. To the right is a navigation menu with 'United States' selected, showing a dropdown list of countries: United States, Canada, United Kingdom, Australia, New Zealand, and Ireland. Further right are login fields for 'Login or Email' and 'Password', with a 'Login' button and a 'Create an account' link. Below the navigation is a hero section with a woman pointing and the text 'Welcome to Rate My Teachers' and 'Helping students, parents and teachers make informed decisions within education'. A form asks 'My school is located in:' with a 'Select a State' dropdown menu. At the bottom, there is a section titled 'Locate Schools by State:' with a grid of state names: Alaska, Alabama, Arkansas, Arizona, California, Colorado, Connecticut, DC, Delaware, Florida, Georgia, Hawaii, Iowa, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Massachusetts, Maryland, Maine, Michigan, Minnesota, Missouri, Mississippi, Montana, North Carolina, North Dakota, Nebraska, New Hampshire, New Jersey, New Mexico, Nevada, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Vermont, Washington, Wisconsin, West Virginia, and Wyoming.

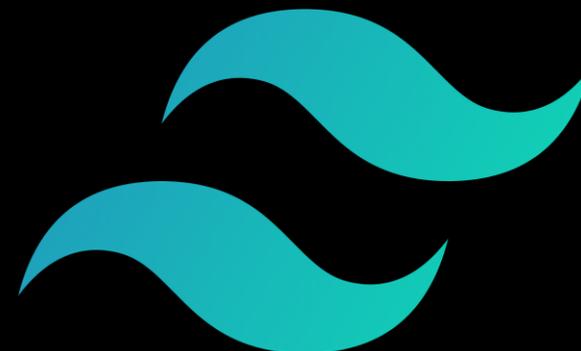

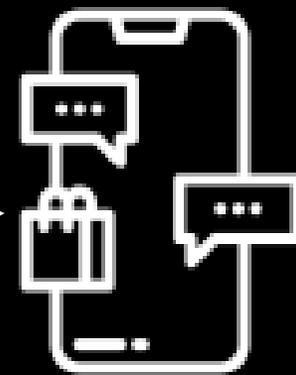

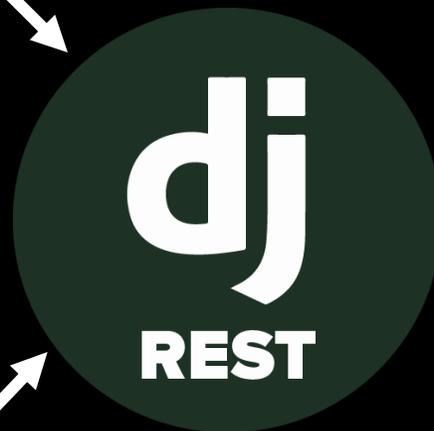

# Стек ТЕХНОЛОГИЙ

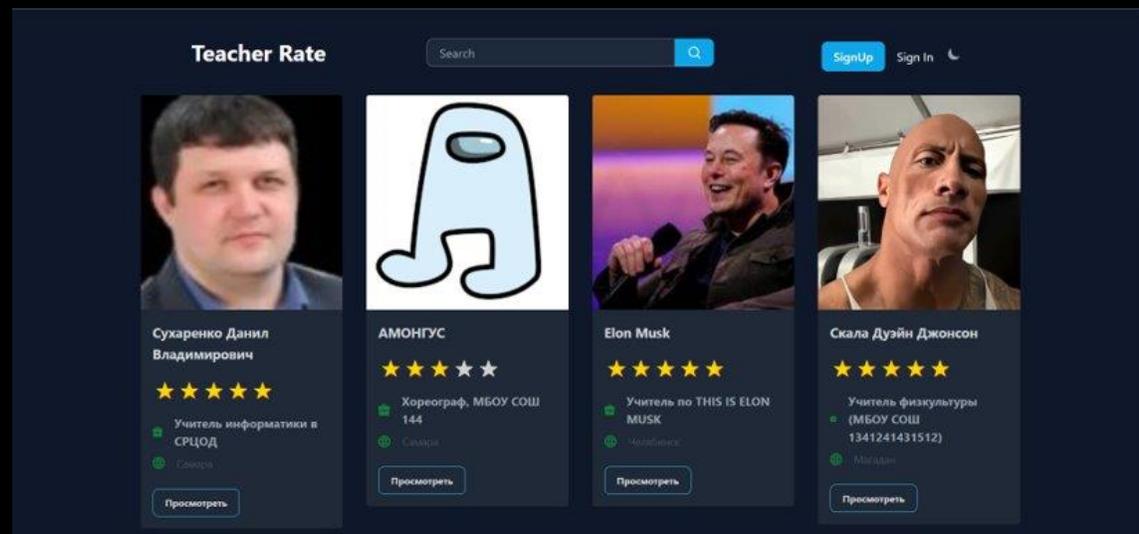

- Django Rest Framework(backend)
- Angular 13(frontend)
- Tailwind

Преимущества  
Django Rest  
Framework над  
Django

# Наше решение

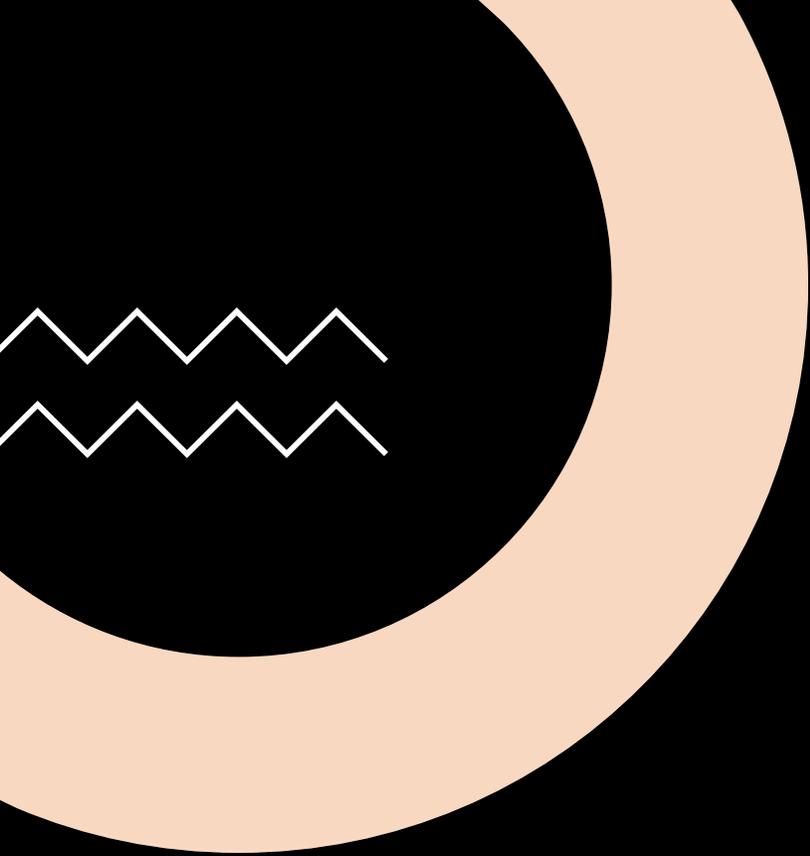

# Преимущества

- Открытый исходный код
- Приятный интерфейс
- Удобная для дополнения архитектура приложения
- Документация

# Доска задач

# Функционал

- Регистрация аккаунта
- Вход в аккаунт
- Добавить учителя
- Найти учителя
- Посмотреть оценку и комментарии к учителю
- Поставить оценку и написать комментарий учителю

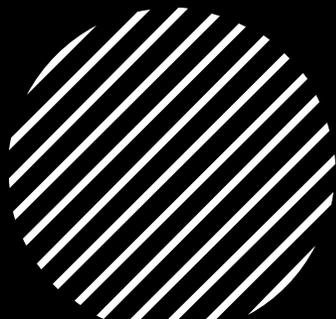

В планах

- Разделить учителей на секции
- Сделать поиск по секциям
